

Nr	Risk	Frequency	Severity	Combined Score
1	Incompatibility issues	4	3	12
2	Integration challenges	3	4	12
3	Security vulnerabilities Frequency	2	5	10
4	Misalignment with concept frequency	3	3	9
5	Lack of engaging visuals	2	4	8
6	User-friendly layout	3	3	9
7	Delays in receiving feedback	3	3	9
8	Miscommunication	2	4	8
9	Availability issues	2	3	6

Risk Resolution Strategy:

**Continuous Monitoring:** Regularly monitor the project timeline and progress to detect and mitigate potential delays promptly.

**Rigorous User Testing:** Conduct thorough and comprehensive user testing at different development stages to promptly identify and rectify any issues.

**Enhanced Communication:** Foster effective communication through scheduled team meetings and clear channels to promote better coordination among team members.

**Technical Assistance:** Maintain access to technical experts who can promptly address any unforeseen technical challenges.

**User Engagement Tactics:** Implement feedback mechanisms and strategies to engage users actively, ensuring the website aligns with their needs and expectations.
